8th International Conference

Redefining Community in Intercultural Context RCIC'19

The present edition of *Redefining Community in Intercultural Context* Conference will focus mainly on the current climate of intercultural dialogue from Europe and the entire world. In the context of globalization and successive migration waves, from conflict areas to safe areas, the interest of scholars is oriented towards the study of intercultural dialogue, philology and linguistics, in order to avoid the transfer of conflictiveness.

Six editions of *Redefining Community in Intercultural Context* Conference Proceedings have already been included in Clarivate Analytics (former ISI - Thompson Reuters) databases, Conference Proceeding Citation Index, Social Science & Humanities.

Main goal. The main goal is an exchange of experience between professors, researchers and practitioners in the field of community dynamics, especially in the area of intercultural pedagogy. Moreover, we look forward to putting into practice the new ideas that will result from the cross-fertilization of teaching activities and scientific research. Our end-goal is to improve the quality of education and, consequently, of personal and intellectual development. Last but not least, we are eager to disseminate the results of our multicultural dialogue within the academic community and beyond it.

Participants. We welcome the participation of professors, researchers, PhD students, MA students from Albania, Romania and abroad.
